Dear Patients & Clients:

We are pleased to be able to offer an exciting opportunity for unwanted hair. We are now offering laser hair removal with the **LightSheer Diode Laser**, a state-of-the-art system designed specifically to remove unwanted hair faster and more reliably than the many other methods on today's market. No longer will you have to deal with continually plucking, shaving, waxing or using those messy, chemical depilatories. The **LightSheer Diode Laser** disables hair follicles to eliminate or significantly impede the hair's regrowth. Areas that can be treated include face, underarms, bikini area and legs. It takes a minimum of three sessions to properly treat the hair follicles. Additional sessions may be required to achieve the desired results.

If you would like a brochure on the **LightSheer Diode Laser** and a price list for our services please let us know. Interested clients may contact our office. Our nursing staff will be happy to answer questions and determine if you are a candidate for laser hair removal.

We hope that you are as excited about this opportunity as we are!

Sincerely,

OBGYN ASSOCIATES OF NORTHERN INDIANA, P.C.

LASER PATIENT INFORMATION

CONTRAINDICATIONS

- USE OF ACCUTANE OR RETIN-A WITHIN THE LAST 6 MONTHS
- ACTIVE HERPES INFECTION IN AREA TO BE TREATED
- USE OF ANTICOAGULANTS OR HISTORY OF BLEEDING DISORDERS
- PREGNANCY
- HISTORY OF KELOID SCARRING
- RECENT TANNING IN THE LAST 3 WEEKS
- USE OF OTHER HAIR REMOVAL TREATMENTS WITHIN THE PAST 6 WEEKS (PLUCKING, WAXING OR ELECTROLYSIS)

SIDE EFFECTS

- REDNESS AND / OR SWELLING
- BLISTERING AND / OR CRUSTING
- TEMPORARY DARKENING OR LIGHTENING OF THE SKIN
- SCARRING

INFORMATION

- THE AREA TO BE TREATED NEEDS TO BE SHAVED PRIOR TO ARRIVING FOR EACH APPOINTMENT
- ONLY DARK PIGMENTED HAIR CAN BE TREATED. BLONDE, GREY OR HAIR THAT IS TOO LIGHT MAY NOT ABSORB ENOUGH ENERGY TO EFFECTIVELY REDUCE THE AMOUNT OF UNWANTED HAIR
- IT TAKES AN AVERAGE OF 3 TO 8 TREATMENTS TO ADEQUATELY REDUCE UNWANTED HAIR
